

PRESS RELEASE

PRO-Coast: The Official Webpage of the Project Now Live in Over 20 Languages! A New Digital Hub for Coastal Environmental Conservation in Europe

Dorset, UK, May, 12 2025 - The PRO-Coast project marks a major milestone with the launch of its dynamic official website, www.pro-coast.eu. Originally unveiled in early 2024, the site has now expanded to feature over 20 languages—an exceptional achievement for a project-driven platform—making vital information accessible to a truly diverse, pan-European audience.

A Pioneering Initiative for Coastal Sustainability

Funded by the European Union and UK Research and Innovation (UKRI), PRO-Coast stands at the forefront of coastal environmental conservation. Its vibrant digital hub is designed to empower communities, policymakers, industry leaders, and civil society across Europe by fostering meaningful dialogue, knowledge exchange, and collaborative action.

Unraveling Complex Human-Environment Interactions

Bringing together 20 distinguished partners from 14 countries—including Belgium, Greece, Spain, Italy, Germany, Estonia, Romania, Montenegro, Cyprus, Malta, the UK, Slovenia, Norway, and Ireland—PRO-Coast delves into the intricate factors shaping human behavior and decision-making in coastal regions. Through nine comprehensive case studies, it examines behavioral patterns, anthropogenic impacts, lifestyle choices, and cultural values that influence environmental stewardship.

Engaging Stakeholders for Lasting Change

The project's core mission is to strengthen biodiversity, restore ecosystems, and enhance ecosystem services by actively involving civil society, policymakers, financial institutions, and industry stakeholders. The new website facilitates access to a wide array of events—from workshops and training sessions to conferences and online forums—creating a vibrant space for dialogue and collaboration that transcends borders.

Innovative Collaboration with a Vision for the Future

Harnessing the expertise of ecologists, social scientists, and policy specialists, PRO-Coast fosters innovative solutions designed for long-term resilience and community empowerment. Though set for a 24-month timeline, the project's cutting-edge technologies and insights are poised to leave an enduring legacy in the field of environmental conservation and coastal management.

-END-

About PRO-Coast: *PRO-Coast consists of 20 partners from 14 countries (Belgium, Greece, Spain, Italy, Germany, Estonia, Romania, Montenegro, Cyprus, Malta, United Kingdom, Slovenia, Norway, and Ireland). They have joined forces to stimulate and empower local communities and civil society in general, to support restoration and maintenance of biodiversity and ecosystem services across Europe, involving them more actively in environmental governance. Over the 3 years of the project, PRO-Coast will gather and synthesize knowledge for informed citizen decisions, improving co-participation in community decision-making, while integrating local knowledge into policymaking*
