

ONLINE WEBINAR

Join the PRO-COAST online webinar series exploring tools for Transformative Change in coastal communities.

Dates: 21st January - 18th March 2026

Webinar 1: **Deep Change Framework**

Main speakers: Prof Dr Ann-Marie Nienaber & Dr Irini Theodorakopoulou

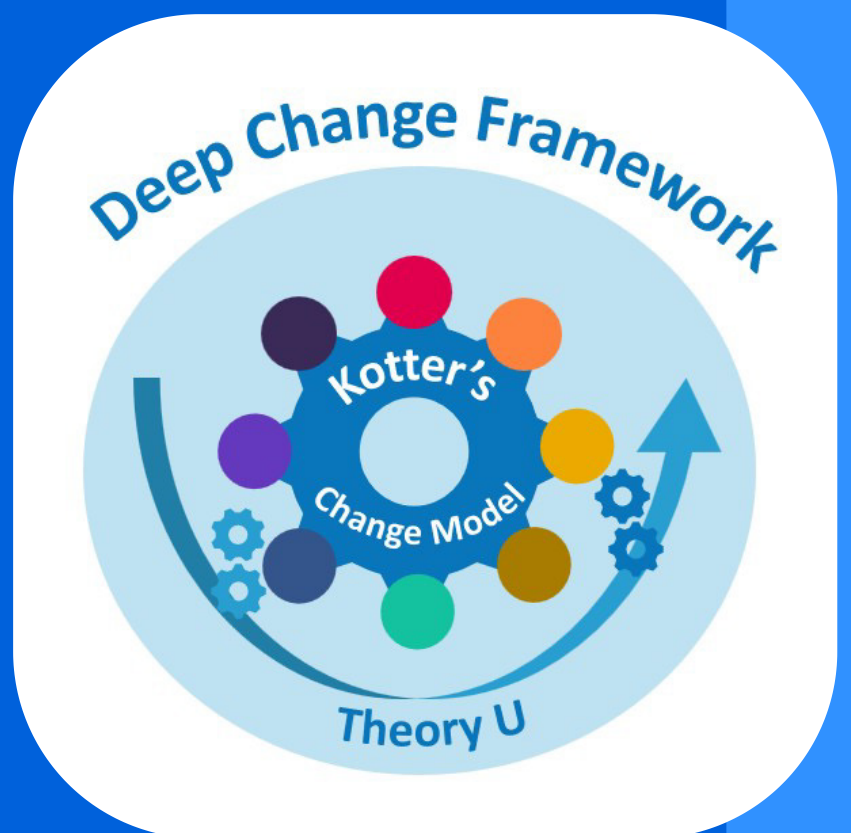

Date: 21st January 2026

Time: 14:00 - 15:00 CET

The first of the PRO-COAST webinars will introduce the **Deep Change Framework**. Led by its developers, **Prof Dr Ann-Marie Nienaber** and **Dr Irini Theodorakopoulou**, the session will explore how this model of transitional change integrates **Kotter's structured change methodology with Theory U's participatory and reflective principles**.

Through the presentation and interactive discussion, attendees will see how **Deep Change uses co-development, iterative feedback loops, and stakeholder engagement to support adaptive decision-making** and drive meaningful transformation in complex environments.

The interactive session is designed to encourage exchange on ways to strengthen stakeholder collaboration and **enhance the impact of transformation initiatives**.
